PROFESSION SUMMARY

I am a highly skilled and meticulous IT professional with extensive experience at Ken Isatis Trading Company as a web developer and social media manager. I am a versatile digital specialist with expertise in both web development and social media management. I have experience in building and maintaining websites while managing online platforms to increase brand visibility and user engagement. I possess a strong understanding of digital tools, content strategy, and web technologies to support business growth and enhance online presence. Recognized for strong analytical skills, problem-solving abilities, and dedication to meeting deadlines, I aim to leverage my expertise in web development and social media management to improve organizational efficiency and growth.
